*Question 2: Can you send me the old bid results for the last Milling bid?*

**See Question 1**

*Question 3: One of the requirements for the bid on page I-1 is Copy of Contractor Prequalification Certificate from DAS. Garrity Asphalt is prequalified with CT DOT and we can provide CON 16 certificate. Would that be accepted? As for DAS certificate, we do not have it at the moment since we could not find line item (category) that matches what we do. We have also send an inquiry to DAS about it and are waiting for an answer.*

**Copy of Contractor's current "Contractor Prequalification Certificate" issued by the State of CT Department of Transportation (CON-16) is an acceptable alternative to CT DAS Contractor Prequalification Certificate.**
