Windsor High School 9/11 Sculpture

Pictured left is Windsor's unique 9/11 sculpture located in the courtyard near the main entrance of Windsor High School at 50 Sage Park Road. It was created through the combined efforts of the Windsor High School Societal Skills class, local sculptor, Lon Pelton, and Windsor High art student, Patrick Daly. The portable screen located near the Chamber of Commerce features photos of this sculpture as well as other Windsor 9/11 Memorials.

A special thanks to all of Windsor Youth Service Bureau's Summer Teen Employment Program (STEP) employees for their contributions in assembling 2,977 luminary bags.
