

Draft Minutes for Windsor Conservation Commission 6-25-19

Dr. Primus Room, Windsor Town Hall

Meeting called to order 7:05 PM

In attendance: Ann Beaudin, Lea Chayes, Dominick DeCarlo, Neill Sachdev, Nigel Pepin, Brian Canoni Liason Tom Hazel. Absent: C. Yeich, J. Klase

Lea moved to approve previous minutes, Dom seconded and passed unanimously.

Tonight discussed e-cycle and date confirmed for 9-21-19. We will have sandwich board and Win-TV will be notified.

Ann reported on State legislation and our own council regarding plastic bag ordinance. This council sent a letter and one response was negative. Ann may go before the council to hopefully obtain a more positive response.

On the State level the bottle bill was a loss as was climate change being taught in schools. Vote against toxic chemical was also a no vote.

Regarding the October Forum on "Living with Bears in Windsor" we have a speaker just need the date.

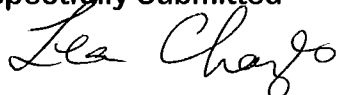

Next meeting will be in September and next CACIWC meeting will be 11/23/19.

Round Table Tom spoke of release of foam at Bradley Airport. Fish from the river cannot be consumed. Our Mayor, Town and State reps are examining what occurred and how to prevent this and remediate the situation.

Tom also reported on Hydrilla which is invasive and propagates wildly. It rapidly causes dense vegetative masses on the water surface, can clog structures like power generation and water supply facilities. It also uses the oxygen in the water that fish and other water denizens must have to thrive.

Dom made a motion to adjourn at 8:35 and Brian seconded.

Respectfully Submitted

Lea Chayes filling in for Colette Yeich
