THE IMPORTANCE OF THE 2020 CENSUS -BE COUNTED!!!

The census determines the number of representatives a state has and how \$10.7 billion dollars are annually spent in Connecticut. There is no citizenship question on the survey this year and no personal data is shared with any department or government agency.

In March everyone will be getting a letter to go on line or over the phone to complete the survey. Fliers and websites are offered in 12 different languages. A week later, a reminder letter will be sent out. At the end of March if someone has not completed the survey, they will get another reminder. If a person still has not responded by early April, you will get the questionnaire survey in the mail.

If after the above, someone still has not responded to the survey, a census worker will come to your door. They will have proper ID and will keep on coming back until you complete the survey for them. The government has hired 8,000 temporary workers for this project.

**April 1st is the reference day for reporting.
