

Question # 4 - Public Safety Complex

"Shall the Town of Windsor appropriate \$33,900,000 for the public safety complex project and authorize the issue of bonds and notes in the same amount to finance said appropriation?"

In 2014 the town began evaluating the condition of the public safety complex located at 340 Bloomfield Avenue, and the space needs of the police, fire or emergency medical services agencies. To address the needs of each agency, it is proposed to renovate a portion of the existing town-owned facility at 100 Addison Road to serve as the new police station, and renovate the existing public safety facility at 340 Bloomfield Avenue for use by the Windsor Volunteer Fire Department and the Windsor Volunteer Ambulance Association.

Key features of proposed improvements include:

- expanded space for current & future use by police, fire and ambulance
- public lobby /space with accessible restroom facilities
- secure prisoner processing & detention areas
- proper and secure evidence processing and storage areas
- secure and compliant E-911 Dispatch Center
- multi-functional training rooms including Emergency Operations Center
- energy efficient HVAC systems and new electrical & plumbing systems
- properly sized & ventilated fire apparatus bays with additional storage space
- fire department and ambulance in a single facility with shared areas.
