SPRING CLEANING FOR FIRE SAFETY

As the days get longer and the weather gets warmer it's a great time of year to focus on some spring cleaning. By clearing clutter we can make sure all of our exits are clear and ready to use in case of an emergency, and we can also reduce the chances of an accidental by clearing combustibles away from ignition sources like space heaters or electrical hazards. You can use our #OwnYourSafety checklist to go room by room to reduce your chance of having a fire at home.

EMERGENCY PREPAREDNESS TIP OF THE SEASON

Spring is a great time to take stock of your emergency supplies and make sure your family emergency plan is up to date with contact information.

You can use this check list:
